

HUMAN AND NATURE YOUTH CLUB

GROWING GLACIERS SUMMER CAMP

Grades 4-7

Our program brings students back outside to develop naturalistic intelligence and passionate leaders

PROGRAM STRUCTURE

Each day covers a different topic: plants, animals, abiotic factors, ecosystems, and sustainability.

The field trips include: classification nature walks, dissecting labs, learning survival skills, and about sustainability through case studies and activities.

Program Dates

Our camps run every week
Monday-Friday in
July and August.

Program Fees

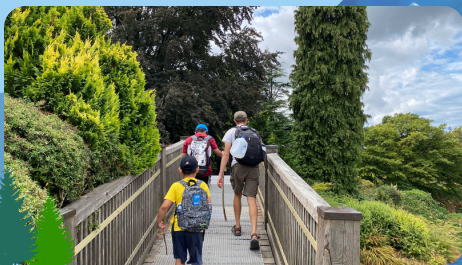

\$350
